

Cross-gender fetishism survey

Note: I would like you to participate in this survey even if you have no sexual interest in cross-gender fetishism, as I am seeking a control group. Of course if you do have some cross-gender fetishism interest, then you should feel free to respond affirmatively to the questions in the survey.

Cross-gender fetishism in males refers to a sexual interest in being a woman or being feminized in sexual scenarios. It can take many forms, which I will ask about during the survey, including imagining being a woman in sexual scenarios, erotic crossdressing, and more. Not everyone who is into some forms is into every form; rather there are multiple types, of which many people are only into some forms.
